I am an enthusiast technology person with a key interest in programming and software development. I am a values and principles driven person and hence I endeavor to grow through hard work and continuous learning to better myself and be productive and effective. To achieve this, I build projects to improve on my skills and seeking a position in software development and be part of values driven team. I am eager to learn and put my skills to work for the progress of a company. With the guide of the workplace mission and with my desire to be an innovative and creative, I believe that I will be able to measure up to the expectation and achieve workplace goals as well as mine. Synergy, as explained in Stephen Covey's Book (The Seven Habits of Highly Effective People) as 'the whole is greater than the sum of its parts' is a guiding principle to me to working with a team. I believe great things happen when people work together.

Willing to relocate: Anywhere

Work Experience

IT Intern

Kenya Tourism Board under Public Service Commission - Nairobi
February 2022 to Present

ICT intern at the Kenya Tourism Board's ICT department.

My roles include:

- Network troubleshooting
- Telephone troubleshooting
- Software support
- Computer installations
- Under mentor-ship to develop mobile application for the board

Software Developer

Moringa School - Nairobi
July 2021 to February 2022

A six months software development boot camp.

- The Boot camp involves rigorous training in web development. Here I build various projects using different technologies based on the module. The projects that I accomplished are available on my GitHub account.
- Participate in group projects.

Volunteer

Ministry of Education Kenya - Samburu County
April 2018 to October 2018

Volunteering contract with Ministry of Education under G-United programme. I was deployed to Samburu county.

This is where I helped struggling learners in grade 2 and 3 improve on their literacy.

I also participated in various community projects to enhance national cohesion and integration.
